

# **PRODUCT DATA SHEET**

## Lightning protection systems Equipotential bonding components

Code: 6245443-71

Description: Al end clamp, code 6245443-71

#### **Application**

Clamp, for connecting solid round or stranded conductor to metallic surfaces. Used in air termination system, down conductor system.

**Classification as per IEC EN 62561** 

- Heavy duty (H 100 kA)
- General use
- Not intended to withstand a static mechanical load
- Non-permanent connection

#### **Technical characteristics - Installation instructions**

Aluminium (body, screw terminal & base). Hot dip galvanized steel (nut).
Is consisted of a body which bonds to the metallic surface. A special design screw terminal M10x20 mm and base for the screw terminal, which clamps the conductor through a M10 nut.
Through one screw (M10) or two screws (M8 or M10), not included.
Ø8-10 mm.
Parallel to metal installation (B5). "T" to metal installation (B6).
Above ground.
Al, Stainless Steel (SSt), St/tZn.
25 Nm.
(             

#### Testing as per IEC EN 62561

The component has successfully passed the testing requirements of standard IEC EN 62561-

1 "Lightning protection system components (LPSC) – Part 1 : Requirements for connection components". Test report No **31917** by accredited laboratory as per ISO 17025.

#### **ELEMKO** management systems

• ISO 9001

• ISO 14001

• ISO 45001

### **Country of Origin**

Greece

Unit: piece / Package: 50 pieces

We reserve the right to introduce changes in the component due to technical evolution.
