

PRODUCT DATA SHEET

Earthing components

Connection components for earth conductors

Code: 6520025-70

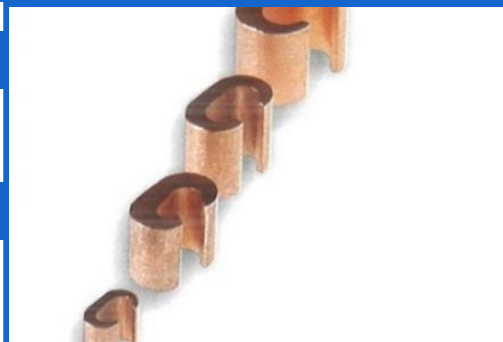

Description: Compression connector type C, code: 6520025 (copper connector)

Application

Type C copper compression connector, for connecting stranded conductors. Used in earthing system.

Classification

- General use
- Permanent connection

Technical characteristics

Material -- Copper (Cu)

Installation instructions

Conductor's dimensions	25 mm ² / 25 mm ²
Connection arrangement	Parallel
Installation	Above ground, buried in ground, embedded in concrete
Can be connected with	Cu, Cu/eSn

Manufacturing Quality Control

Manufacturing quality control according standard ISO 9001

Country of Origin

Greece

Unit: piece / Package: 100 pieces
