PRODUCT DATA SHEET

Lightning protection systems

Auxiliary components of Lightning Protection System

Code: 6441250-71

Description: Bimetallic contact CUP-AL, Code: 6441250

Application

Installed between copper surfaces and aluminum or steel surfaces, in order to avoid any electrochemical corrosion.

Technical characteristics -- Installation instructions

Dimensions	250x50x1 mm
Material	Copper (Cu) and aluminium (Al)
Installation location	Above ground
Installation	The copper part of the bimetallic contact should be in touch with the copper surface as well as the aluminium part should be in touch with the aluminium or steel surface. The connection should be performed through suitable clamp.

Comply with

The component complies with standard IEC EN 62561-1 “Lightning protection system components (LPSC) – Part 1 : Requirements for connection components”.

Manufacturing Quality Control

Manufacturing quality control according standard ISO 9001

Country of Origin

Greece

Unit: piece / Package: 1 piece
