Description

Conductor fastener, tested according to IEC EN 62561-4, for use in air termination system. Suitable for fastening solid round or stranded conductor Ø8–10 mm (50–70 mm²) on tile or eternite roofs. The fastener consists of :

- A part which tightens the conductor.
- A polyamid support suitable for external installation and resistant to ultraviolet radiation.
- A soft PVC expansion plug for the fixation on the tile.

The conductor's tightening is achieved by two stainless steel (V2A) screws M6x16 mm.
